LARGE CAP GROWTH FACT SHEET

Risk-Adjusted Return Statistics vs. Large Cap Growth Universe: 4/1/99 thru 12/31/17

Universe Source: CAI Large Cap Growth Universe. Inception date for CastleArk Large Cap Growth Composite: March 1, 1999. Peer Universe data is calculated quarterly. As a result, performance exhibits as shown represent the first full quarter of composite performance (beginning April 1, 1999 thru December 31, 2017). Above numbers in parenthesis represent CastleArk's percentile rank relative to peer strategies within an independent consultant-derived universe of similarly managed portfolios and may not be representative. Additional information on the universe source and construction methodology is available upon request. The percentile rankings listed above may not be representative of any one client's experience because the rankings reflect composite results. The rankings are not indicative of future performance.

Important Disclosures

Performance reflects reinvestment of all income and capital gains and is shown in US dollars and after the deduction of transaction costs. Performance is shown gross and net of actual management fees charged. Actual investment advisory fees incurred by clients may vary. Performance during certain periods reflect strong stock market performance that is not typical and may not be repeated. *Up/Down Market Capture* measures composite performance (gross of fees) relative to the index during periods when the index has risen/fallen. *Alpha* measures the excess return (gross of fees) relative to the benchmark over a period of time. *Information Ratio* measures the excess return generated from the amount of risk relative to the index. Peer Group Universe represents the CAI Large Cap Growth Universe and may not be representative. Additional information on the universe source and construction methodology is available upon request.
